Business Question and Visualization Report

Date	28 September 2026
Team ID	LTVIP2026TMID00420
Project Name	EV Market Analysis Using Tableau
Maximum Marks	5 Marks

Visualization development refers to the process of creating graphical representations of data to facilitate understanding, analysis, and decision-making. The goal is to transform complex datasets into visual formats that are easy to interpret, enabling users to gain insights and make informed decisions. Visualization development involves selecting appropriate visual elements, designing layouts, and using interactive features to enhance the user experience. This process is commonly associated with data visualization tools and platforms, and it plays a crucial role in business intelligence, analytics, and reporting

Business Questions and Visualisation

The process involves defining specific business questions to guide the creation of meaningful and actionable visualizations using data stored in Snowflake. Well-framed business questions help identify the required metrics, determine the appropriate Snowflake tables or analytical views, select relevant data, and create visualizations that provide useful business insights.

Sample

Note: Min 8 business question and visualisations Required inform of above

1. What is the yearly trend of EV sales globally?Code (Tableau): SUM([Sales Count]) on Columns: YEAR([Sale Date])

Visualisation: Line Chart

2. What is the market share of top EV manufacturers?Code: SUM([Sales]) / TOTAL(SUM([Sales]))

Visualisation: Donut Chart / Pie Chart

3. How is customer satisfaction varying across regions? (Tere photo wala)Code: AVG([Customer Satisfaction Score]) by [Region]

Visualisation: Choropleth Map + Bar Chart

4. Which EV model has the highest average driving range?Code: AVG([Range_km]) by [Vehicle Model]

Visualisation: Horizontal Bar Chart

5. What is the correlation between charging stations and EV sales by state?Code: CORR([Charging Stations Count], [Sales])

Visualisation: Scatter Plot with Trend Line

6. How does price range affect the number of sales?Code: IF [Price] < 30000 THEN "Budget" ELSEIF [Price] < 60000 THEN "Mid" ELSE "Premium" END

Visualisation: Stacked Bar Chart

7. What are the top 5 cities with highest EV adoption?Code: RANK(SUM([Sales])) Filter: Top 5 by City

Visualisation: Tree Map

8. What is the most preferred battery type among customers?Code: COUNT([Battery Type]) by [Battery Type]

Visualisation: Pie Chart
