Project Name	EV Market Analysis Using Tableau
Maximum Marks	5 Marks

Creating an effective dashboard involves thoughtful design to ensure that the presented information is clear, relevant, and easily understandable for the intended audience. Here are some key principles and best practices for dashboard design

Activity 1: Interactive and visually appealing dashboards

Creating interactive and visually appealing dashboards involves a combination of thoughtful design, effective use of visual elements, and the incorporation of interactive features. Here are some tips to help you design dashboards that are both visually appealing and engaging for users so take care of below points

- Clear and Intuitive Layout
- Use Appropriate Visualizations
- Colour and Theming
- Interactive Filters and Slicers
- Drill-Down Capabilities
- Responsive Design
- Custom Visuals and Icons
- Use of Infographics

Here are five potential outcomes from the dashboard image provided:

Here are five potential outcomes from my EV dashboard:

_ Overall Sales Overview: Dashboard reports total Annual Sales Units of 1,550,703,961 units, highlighting large-scale EV market.

_ Market Region Sales: South Asia is the top market region, followed by Latin America and North America. Europe has lowest share, showing emerging markets driving EV growth.

_ Manufacturing Country Sales: India leads manufacturing by annual sales, followed by China and Vietnam, indicating low-cost manufacturing dominance.

_ Battery Capacity vs Sales: Vehicles with 50-100 kWh battery capacity have highest average annual sales (6K-8K units), showing customer preference for mid-range battery.Category Wise Sales: SUV category leads with 174,000,000 units, followed by Sedan at 133,134,030 units, showing SUV demand is highest in EV segment.

Activity 2

Publish Dashboard on Tableau Public and Paste the Dashboard Public link below:
