Project Name	EV Market Analysis Using Tableau
Maximum Marks	5 Marks

By using stories in Tableau, you can effectively communicate complex data in a way that is both interactive and engaging, making it easier for the audience to follow along and understand the insights. It's a tool for **data storytelling**, allowing you to present insights in a cohesive, engaging way that takes viewers through a logical progression of findings or analyses.

In Tableau, **Story** is a feature that allows you to create a sequence of dashboards, visualizations, and text to present data insights in a cohesive and narrative-driven way. It's like a slideshow within Tableau that guides the audience through a series of data points, helping them understand key insights, trends, or outcomes of your analysis.

Observations:

_ Category Wise Sales: SUV segment leads with highest sales at 174M, showing consumer preference for spacious electric vehicles.

_ Market Region Sales: South Asia leads with 210M sales, indicating high EV adoption in emerging Asian markets.

_ Manufacturing Country Sales: India leads manufacturing with 174M units, showing India's dominance in EV production.

_ Overall Insight: The EV market shows strong growth with SUVs and South Asian markets driving the maximum revenue.
