Purpose / Vision

1. CUSTOMER SEGMENT(S)

Business Analysts, Investors, EV Companies (Ola, TVS, Ather), Govt Policy Makers, Students. Who need EV sales data for decision making. i.e. working parents of 0-5 y.o. kids

6. CUSTOMER CONSTRAINTS

17M rows data, Excel crashes
No Tableau / BI tool knowledge
No budget for paid tools

Data is unclean with null values

2. JOBS-TO-BE-DONE / PROBLEMS :

To analyze state-wise EV sales & growth
To find top EV makers market share (Ola, TVS, Bajaj)
To track 2W, 3W, 4W category growth year-wise
No central interactive dashboard available

f the change in regulations.

7. BEHAVIOUR

Manually downloads data from Vahan portalSpends hours making Excel chartsSearches news for EV market reportsHires costly data analysts

9. PROBLEM ROOT CAUSE

Root cause is lack of automated visual solution. Vahan data is huge, unprocessed, scattered state-wise. No single dashboard that shows KPIs, Maps, Maker comparison at one place.

3. TRIGGERS

What triggers customers to act?

Govt pushing EV adoption (FAME subsidy
)Rising petrol prices
Investors looking for EV market opportunity

Need to make data-driven business decisions

10. YOUR SOLUTION

Our solution: EV Market Analysis Using Tableau. Features: Interactive Map for state sales, Line chart for year-wise growth, Bar chart for top makers, KPIs (Total Sales, Growth %), Filters for Year/State/Category, Story with 5 slides insights. Solves all problems in one click.

ONLINE: Tableau Public, Kaggle, Vahan Dashboard, Google Search. OFFLINE: Office meetings, Investor presentations, College projects.

8.1 ONLINE

ONLINE: Tableau Public, Kaggle, Vahan Dashboard, Google Search. OFFLINE: Office meetings, Investor presentations, College projects.

4. EMOTIONS: BEFORE / AFTER

8. CHANNELS of BEHAVIOUR

8.2 OFFLINE

Extract offline channels from #7

BEFORE ; Frustrated, Confused due to 17M rows raw data, Fear of wrong investment. AFTER: Confident, Clear insights, Happy with easy visual dashboard.
